Synopsis

Demelza loves science – she loves it so much that she stays up late to work on her inventions.

But she soon discovers she's also inherited a distinctly unscientific skill: Spectre Detecting. Like her grandmother, she can summon the ghosts of the dead. When Grandma Maeve is kidnapped, Demelza and her pasty-faced best friend, Percy, must leap into action to solve the deadly mystery ...

Author Bio

Holly grew up in a real-life children's book, playing the part of Drusilla in ITV's The Worst Witch alongside Felicity Jones.

She spent her childhood in Wales, wishing that she was Pippi Longstocking, and after graduating spent time working as an actor, broadcaster and cheese-seller, until one day she had the idea to pen a story about a tenacious young inventor named Demelza.

Holly's days are now spent penning new stories as well as leading drama, craft and bushcraft classes for children.
