**3-10. Capital Cities Across Australia (William Day)** **\$29.99 \$23.99ea**

Each of Australia's eight capital cities has a unique history. Some, like Sydney, depended on convicts for their early survival. Others, such as Adelaide, refused to accept convicts and developed differently as a result. Having a reliable source of fresh water was a common requirement, which is why all of the cities are located beside a water supply of some sort. Many cities struggled through their early years, until the 19th century Gold Rush provided them with the funds to build magnificent civic buildings, as well as roads, bridges and railways. Today, each of the capitals has its own character and attractions, and their development plans will determine the shape of Australia's future.
