### 21. Armistice (Ruth Starke and David Kennett)

**Pegi Williams Standing Order – March 2018.** On 11 November 1918, after four years of fighting, the Allied powers signed an agreement with Germany to end the Great War and to begin peace negotiations. The armistice, as it was known, took effect on the eleventh hour of the eleventh day of the eleventh month. But it would take more than seven months before peace would finally be declared at Versailles on 28 June 1919. The Great War was over. But the world as it had been known was changed forever. In this book, many voices recall the day the war ended, and the months that followed before peace rang out around the world. Armistice will bring these stories to life and is published to commemorate the 100th anniversary since the fighting stopped.

The text is a palindrome: in the first half reading as a dire denunciation, and in the second, reversed, is a call to hope. It graphically and cleverly illustrates that the very same situation can be viewed quite differently depending on perspective. From the glass half empty: 'There is no light on the horizon and it is foolish to think you can change anything at all'; to the glass half full: 'you can change anything at all. It is foolish to think there is no light on the horizon.'

He loves routine, and music too: and every week he goes to market with his mother, to ride his special horse on the town carousel. But then the Germans come, with their guns, and take the town. A soldier shoots a flamingo from the sky, and it falls to earth terribly injured. And even worse is to come: the carousel is damaged, the horses broken. For this vulnerable boy, everything is falling apart. Only there's a kind sergeant among the Germans – a man with a young boy of his own at home, a man who trained as a carpenter. Between them, perhaps boy and man can mend what has been broken – and maybe even the whole town...Ages 10+

While I was there, a painting was stolen from the Guggenheim Museum, where Aunt Gloria works. Everyone was very worried and upset. I did not see what the problem was. I do not see the point of paintings, even if they are worth millions of pounds. Perhaps that's because of my very unusual brain, which works on a different operating system to everyone else's.
