HC: 978-0-7636-9603-0

Multi-award-winning, *New York Times* best-selling duo Mac Barnett and Jon Klassen conspire again on a slyly funny tale about some very sneaky shapes.

Use *Triangle* in your classroom as a creative writing prompt and to talk about shapes, angles, and the many sides of friendship.

- ▲ After reading the story, discuss whether Square had planned all along to block Triangle's door.
- ▲ Ask students if they have ever played a sneaky trick on a friend or had a friend play one on them. How did it make them feel?
- ▲ Talk about the angles in each shape and why Square would not fit through Triangle's door. Is there any way for him to fit through?
- ▲ Have students pick different shapes and write a story using them as characters.
