DUCKS OVERBOARD!

A True Story of Plastic in Our Oceans

Eco facts come to light as a plastic duck narrates this beautifully illustrated true story of thousands of bath toys that were lost at sea and swept to the four corners of the Pacific.

Use *Ducks Overboard!* in your classroom to discuss the importance of environmental protection.

DUCKS OVERBOARD!

A True Story of Plastic in Our Oceans

- ☀ *Ducks Overboard!* explains how useful plastic can be. Ask students to compile a list of items they have in their homes that are made of plastic.
- ☀ Of course, plastic can also be harmful. Have students create a list of resources to use instead of plastic. For example, a cloth shopping bag instead of a plastic one.
- ☀ Have students imagine a different piece of plastic or trash that might have ended up on a similar journey as the rubber ducks. Ask them to write and illustrate its story.
